Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

Dr. Marty Becker has become known as "America's Veterinarian" because of his educational and entertaining shows and columns. For more than ten years, Dr. Becker has been the popular veterinary contributor to ABC-TV's Good Morning America and is now a member of Core Team Oz on Dr. Mehmet Oz's show. Dr. Becker will help owners solve problems and enhance their bond with their cats through a tip-filled book on everything from finding the right cat to preventing health problems and bad behavior. He will start owners off on the right foot, whether they buy a kitten or adopt an older cat, showing them how to solve the most annoying behavior and cat-care problems—from scratching furniture to not using the litter-box. (Surprising fact: did you know that black cats shed more than light-colored cats?) And he advises owners how to make their own cat toys, and how to save money on medication, both traditional and alternative.

Every Haynes manual is based on a complete teardown and rebuild, contains hundreds of "hands-on" photos tied to step-by-step instructions, and is thorough enough to help anyone from a do-it-your-selfer to a professional.

This timely volume presents powerful stories told by Black families and students who have successfully negotiated a racially fraught, affluent, and diverse suburban school district in America, to illustrate how they have strategically contested sanctioned racist practices and forged a path for students to achieve a high-quality education. Drawing on rich qualitative data collected through interviews and interactions with parents and kin, students, community activists, and educators, Family Engagement in Black Students ' Academic Success chronicles how pride in Black American family history and values, students ' personal capabilities, and their often collective, proactive challenges to systemic and personal racism shape students ' academic engagement. Familial and collective cultural wealth of the Black community emerges as a central driver in students ' successful achievement. Finally, the text puts forward key recommendations to demonstrate how incorporating the knowledge and voices of Black families in school decision making, remaining critically conscious of race and racial history in everyday actions and longer term policy, and pursuing collective strategies for social justice in education, will help eliminate current opportunity gaps, and will counteract the master narrative of underachievement ever-present in America. This volume will be of interest to students, scholars, and academics with an interest in matters of social justice, equity, and equality of opportunity in education for Black Americans. In addition, the text offers key insights for school authorities in building effective working relationships with Black American families to support the high achievement of Black students in K-12 education.

This book explores the representation of fatherhood in contemporary North American autobiographical comics that depict paternal conduct from the post-war period up to the present. It offers equal space to autobiographical comics penned by daughters who represent their fathers ' complicated and often disappointing behavior, and to works by male cartoonists who depict and usually celebrate their own experiences as fathers. This book asks questions about how the desire to forgive or be forgiven can compromise the authors ' ethics or dictate style, considers the ownership of life stories whose subjects cannot or do not agree to be represented, and investigates the pervasive and complicated effects of dominant masculinities. By close reading these cartoonists ' complex strategies of (self-)representation, this volume also places photography and archival work alongside the problematic legacy of self-deprecation carried on from underground comics, and shows how the vocabulary of graphic narration can work with other media and at the intersection of various genres and modes to produce a valuable scrutiny of contemporary norms of fatherhood.
