Active Directory (AD)  
is one of the most

# Online Library

## Active Directory

critical components of any IT infrastructure. In a Windows-based environment, almost all the applications and tools are integrated with Active Directory for authentication, directory browsing, and single sign-on. An outage in Active Directory can stall the entire IT operations of an organization.

# Online Library Active Directory Designing

*Active Directory :  
Deploying And  
Design Considerations  
Running Active  
and Best ...*

Applies To: Windows  
Server 2016, Windows  
Server 2012 R2,  
Windows Server 2012.  
By deploying Windows  
Server Active Directory  
Domain Services (AD  
DS) in your  
environment, you can  
take advantage of the

# Online Library

## Active Directory

centralized, delegated administrative model and single sign-on (SSO) capability that AD DS provides. After you identify the deployment tasks and current environment for your organization, you can create the AD DS deployment strategy that meets your organization's needs.

# Online Library Active Directory

## *AD DS Design and Planning | Microsoft Docs*

When you design an Active Directory logical structure before you deploy AD DS, you can optimize your deployment process to best take advantage of Active Directory features. To design the Active Directory logical structure, your design

# Online Library Active Directory

team first identifies the requirements for your organization and, based on this information, decides where to place the forest and domain boundaries.

## Directory

*Active Directory*

*Designing Deploying*

*And Running Active ...*

In this course,

Designing and Installing

Windows Server 2019

Active Directory

Domain Services, you'll

discover how to

# Online Library Active Directory

successfully deploy  
Active Directory  
Domain Services while  
following Microsoft's  
best practice guidelines.

First, you'll learn what  
Active Directory  
Domain Services is.  
Next, you'll explore the  
different domain, tree,  
and forest models  
available to you before  
going on to look at  
deploying Windows

# Online Library Active Directory

Server 2019 Domain

Controllers into an  
existing Active  
Directory Forest.
