AMA citation style guide - BibGuru Guides
We are currently following the 10th edition of the AMA style guide. AMA is a documentary-note style, which means you put a number in your text to cite sources of information and the reference list is in numerical order. In text citations are in superscript 1 and in order of citation (the first citation is 1 the next is 2). If you use the same source again, you keep the same number (the source you used for the first citation is always 1, even if you use it again after 6).

AMA was developed by the American Medical Association for the purpose of writing medical research. References are found at the end of a manuscript and are titled " Reference List, " and each item should be listed in numerical order (two references should not be combined under a single reference number) as opposed to alphabetically.

Introduction // Purdue Writing Lab
AMA Citation Guide The History of AMA Citation. Now in its 10 th edition, AMA Citation was first introduced in the AMA Manual of Style: A Guide for Authors and Editors and is the cornerstone of writing style for the American Medical Association. Written originally by the editors of the Journal of the American Medical Association, and later published by Oxford University Press, the manual lays the foundation for writing and citation styles used by those in the medical and research communities.
