Audi Engine Management Systems - WiManual

hi i have an audi a3 sportsback (diesel)my engine management light comes on initially and i lose power but if i stop and turn off ignition when i start up again it stays off and i get full power back but after a couple of miles it comes back on flashing and i lose power again so i switch off again and it goes back to full power also my emission control light stays on whats the diagnosis please

hi i have an audi a3 sportsback (diesel)my engine management

Cheers for this, but it's not the Engine Management light. My user manual says it's the Emission Control System. See below picture for symbols for EML on the C6 A6 and the explanation in the user manual. To answer your question, no, nothing unusual in my driving habits or environmental factors in the past few days.

Emission control warning light – causes? | Audi Sport.net
