books are better Originally posted at Fantasy Literature This is Iain M. Banks' first novel (1987) set in his now famous CULTURE universe, and although it's a well-written book with lots of clever ideas, I wouldn't say it's the best book in the series. Then again, if like many readers you would have feelings of angst and guilt if you were to read the books of a series out of order, then it makes sense to start with this one.

It considers Banks' origins as a writer, the development of his politics and ethics, his struggles to become a published author, his eventual success with *The Wasp Factory* (1984) and the publication of the first Culture novel, *Consider Phlebas* (1987). His 1994 essay "A Few Notes on the Culture" is included, along with a range of critical responses to the 10 Culture books he published in his lifetime and a discussion of the series' status as utopian literature. Banks was a complex man, both in his everyday life and on the page. This work aims at

Understanding the Culture series not only as a fundamental contribution to science fiction but also as a product of its creator's responses to the turbulent times he lived in.

The man known as Cheradenine Zakalwe was one of Special Circumstances' foremost agents, changing the destiny of planets to suit the Culture through intrigue, dirty tricks and military action. The woman known as Diziet Sma had plucked him from obscurity and pushed him towards his present eminence, but despite all their dealings she did not know him as well as she

It believed the man to be a lost cause. But not even its machine could see the horrors in his past. Ferociously intelligent, both witty and horrific, USE OF WEAPONS is a masterpiece of science fiction.

military principles and yet almost perversely peaceful, the Gzilt helped set up the Culture ten thousand years earlier and were very nearly one of its founding societies, deciding not to join only at the last moment. Now they've made the collective decision to follow the well-trodden path of millions of other civilizations; they are going to Sublime, elevating themselves to a new and almost infinitely more rich and complex existence. Amid preparations though, the Regimental High Command is destroyed. Lieutenant Commander (reserve) Vyr Cossont appears to have been

involved, and she is now wanted - dead, not alive. Aided only by an ancient, reconditioned android and a suspicious Culture avatar, Cossont must complete her last mission given to her by the High Command. She must find the oldest person in the Culture, a man over nine thousand years old, who might have some idea what really happened all that time ago. It seems that the final days of the Gzilt civilization are likely to prove its most perilous.

The fifth Culture book from the awesome imagination of Iain M. Banks, a modern master of science fiction.
