calculus and the Haskell language. Many students will be encountering this paradigm and these languages for the first time.

### *UCSD CSE 130*

CSE 130 This course will cover basic concepts and design trade-offs related to programming languages. The first half of the course focuses on functions, types, scope, storage management, exceptions, and continuations. The second half covers object-oriented features and concurrency. We will conclude with a few special-topics in programming languages. The class also has a number of
