When Jack and his sister, Annie, join a group of nineteenth-century explorers aboard the H.M.S. Challenger, they learn about the ocean, solve the mystery of its fabled sea monster, and gain compassion for their fellow creatures.

Provides readers with answers to questions regarding the diverse creatures who live in the oceans, with a review of some of the myths regarding sea monsters and the like.

The exclusive, official story of the survival, faith, and family of Chile's 33 Trapped Miners, by a Pulitzer Prize-winning journalist When Chile's San José mine collapsed outside of Copiapó in August, 2010, it trapped 33 miners beneath thousands of feet of rock for a record-breaking 69 days. And across the globe, we sat riveted to television and computer screens while journalists flocked to the Atacama Desert. While we saw what transpired above ground during the grueling and protracted rescue, the story of the miners' lives buried below the earth's surface—and the lives that led them there—hasn't been heard until now. In *Deep Down Dark*, this master work of a Pulitzer Prize-winning journalist, Héctor Tobar gains exclusive access to the miners and their stories. The result is a miraculous and emotionally textured account of the 33 men who came to think of the San José mine as a kind of coffin, as a "cave" inflicting constant and thundering aural torment, and as a church where they sought redemption through prayer, while the world watched from above. It offers an understanding of the families and personal histories that brought "los 33" to the mine, and the mystical and spiritual elements that surrounded working at such a dangerous place.

Just before summer begins, 13-year-old Ali finds an odd photograph in the attic. She knows the two children in it are her mother, Claire, and her aunt Dulcie. But who's the third person, the one who's been torn out of the picture? Ali figures she'll find out while she's vacationing in Maine with Dulcie and her four-year-old daughter, Emma, in the house where Ali's mother's family used to spend summers. All hopes for relaxation are quashed shortly after their arrival, though, when the girls meet Sissy, a kid who's mean and spiteful and a bad influence on Emma. Strangest of all, Sissy keeps talking about a girl named Teresa who drowned under mysterious circumstances back when Claire and Dulcie were kids, and whose body was never found. At first Ali thinks Sissy's just trying to scare her with a ghost story, but soon she discovers the real reason why Sissy is so angry. . . . Mary Downing Hahn is at her chilling best in this new supernatural tale that's certain to send shivers down her readers' spines.

Dive deep with Gail Gibbons as she explains the mechanics and discoveries of deep-sea exploration. The surface of the moon is more familiar to us than the deep sea of our own planet. Many oceanographers are trying to change that. To explore the deep sea, they climb into submersibles and employ Remotely Operated Vehicles to find out more about the ocean and ocean floor. In *Exploring the Deep, Dark Sea*, nonfiction rockstar Gail Gibbons invites readers along for a journey to the depths of the ocean. Without leaving home, readers will learn about the types of animals found at different sea levels. With her trademark combination of clearly-labeled diagrams, infographics, and accessible language, Gibbons explains the technology for exploration, and the many fascinating discoveries scientists have made in the darkest reaches of the ocean. A perfect introduction for aspiring oceanographers, marine biologists, and conservationists, this new edition has been vetted by an expert oceanographer.

In 2010, a nineteen-year-old super-fan rushed the stage during a Lamb of God concert in Prague. To protect himself, singer Randy Blythe pushed the fan away. Unbeknownst to Blythe, the young man hit his head on the floor when he fell and later died from the injury. Blythe was promptly incarcerated on charges carrying a prison term of five to ten years. Thirty-seven days later, he was released on bail to await trial. Although legal experts told him not to return to the Czech Republic to face the charges, Blythe explained that he “could not run away from this problem while the grieving family of a dead young man searched hopelessly for answers that [he] might help provide.” After a five-day trial, he was acquitted on March 5, 2013. In *Dark Days*, Blythe tells the story of his incarceration and the wild life that led up to it. As he explains, “Most substance abuse books end with the author getting sober. My book starts there.”

"The family elements in the story - the real struggles with marriage, raising a family, making a living, and just trying to enjoy life - have broadened the book's appeal to a wider audience, primarily women who are not into technology." *DARK END OF SPECTRUM* will make you think twice before turning on your cell phone or PDA! *DARK END OF THE SPECTRUM* is a frighteningly plausible and headline ripping tale of the real threats that loom in cyberspace and beyond with a Michael Crichton realism. Based on the author's years of research into the hacker culture. *DARK END OF THE SPECTRUM* is a thriller that will connect with everyone with a cell phone, PDA or wireless device. When a group of digital terrorists known as ICER take over the US power grid and the cell phone network, they give the government an ultimatum - bomb the borders of Afghanistan and Pakistan with nuclear weapons to put an end to Al-Quada or they will start downing commercial airliners. When the government refuses,

New York Times bestseller Alison Goodman's eagerly awaited new project -- a Regency adventure starring a stylish and intrepid demon-hunter! London, April 1812. On the eve of 18-year-old Lady Helen Wrexhall's presentation to the Queen, one of her family's housemaids disappears--and Helen is drawn into the shadows of Regency London. There, she meets Lord Carlston, one of the few who can stop the perpetrators: a cabal of demons infiltrating every level of society. Dare she ask for his help, when his reputation is almost as black as his lingering eyes? And will her intelligence and headstrong curiosity wind up leading them into a death trap?

Hall's on his first official case after becoming a private investigator. It's supposed to be a simple, and boring case. All he had to do was follow a cheating husband and take some pictures. But for him, things are never that simple. He quickly gets swept up in a murder case, which leads to the name of an out-of-town hitman. As Hall investigates and tries to find the elusive hitman, more bodies pile up, and the name of one man keeps entering the picture. A man named Ripper who's behind it all. But is Ripper actually a new foe, or is he the same criminal mastermind that Hall has run into before with a different name?
