Discovery Education will engage students in the important topics of biodiversity, ocean conservation and sharks through the integration of SHARK WEEK videos in both Discovery Education Streaming Plus and Discovery Education Science Techbook and complementing these videos with a variety of classroom activities, lessons, virtual reality content ...

This unprecedented book introduces the latest use of technology to support second language acquisition, combining the application of technology with language acquisition theory and practice in the modern classroom. This book is coherently organized around the teaching concepts and approaches such as communicative, content-based, skills-based and inquiry base teaching. The authors provide an extensive, up-to-date coverage of issues such as the use of technology for communicative language teaching, using technology to teach oral communication skills and reading and writing. For anyone interested in learning ways to integrate technology in the teaching of English Language.

This reference takes readers through the essential components of making a classroom computer an invaluable tool for teachers and students. Topics include managing classroom information, standards-based curriculum and instruction, traveling safely on the information highway, and professional development.

The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of THE SECRET. Are you smart enough? THE SECRET: A TREASURE HUNT was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum.
