No single group of men at West Point--or possibly any academy--has been so indelibly written into history as the class of 1846. The names are legendary: Thomas "Stonewall" Jackson, George B. McClellan, Ambrose Powell Hill, Darius Nash Couch, George Edward Pickett, Cadmus Marcellus Wilcox, and George Stoneman. The class fought in three wars, produced twenty generals, and left the nation a lasting legacy of bravery, brilliance, and bloodshed. This fascinating, remarkably intimate chronicle traces the lives of these unforgettable men--their training, their personalities, and the events in which they made their names and met their fates. Drawing on letters, diaries, and personal accounts, John C. Waugh has written a collective biography of masterful proportions, as vivid and engrossing as fiction in its re-creation of these brilliant figures and their pivotal roles in American history.

A rising China, climate change, terrorism, a nuclear Iran, a turbulent Middle East, and a reckless North Korea all present serious challenges to America's national security. But it depends even more on the United States addressing its burgeoning deficit and debt, crumbling infrastructure, second class schools, and outdated immigration system. While there is currently no great rival power threatening America directly, how long this strategic respite lasts, according to Council on Foreign Relations President Richard N. Haass, will depend largely on whether the United States puts its own house in order. Haass lays out a compelling vision for restoring America's power, influence, and ability to lead the world and advocates for a new foreign policy of Restoration that would require the US to limit its involvement in both wars of choice, and humanitarian interventions. Offering essential insight into our world of continual unrest, this new edition addresses the major foreign and domestic debates since hardcover publication, including US intervention in Syria, the balance between individual privacy and collective security, and the continuing impact of the sequester.
