Here's an all-new presentation of the most powerful, thoroughly tested, and widely used tool ever designed for improving human effectiveness and developing sound leadership. For more than 25 years millions of people have been using the Grid framework to achieve optimum organizational and personal productivity. Built on the foundations of Blake and Mouton's best-selling management classic 'The Managerial Grid' (more than 2 million copies in print!) this new book employs dynamic literary action - characters, dialogue, storyline - to fuse Grid theory with workplace reality. It gives you a front row seat to observe, react to, and, therefore more clearly comprehend and successfully apply proven Grid solutions. You almost become a cast member in this 'management drama' as the employees of the company Celarmco interact with their colleagues, subordinates, and bosses. You witness the delicate dynamics of managerial and personal behavior as these characters project and respond to Grid styles that reflect various degrees of concern for performance and people. But make no mistake. This completely new version contains the same descriptions, definitions and explanations of the Grid framework that is

improving human relations and increasing productivity in 37 corporations worldwide. Still covered are the major approaches for managing work and people (9,1; 1,9; 9,9; etc); solving conflict; handling organizational change; and developing strong leadership. If you are familiar with Grid concepts, the real-life scenarios in this book will give you fresh new insights into applying them. If this is your first exposure to the Grid, you will discover a valuable, effective system for better understanding 'what makes a person tick'. 'Leadership Dilemmas - Grid Solutions' is a classic management text for all the right reasons - it's sound, it's practical, it's understandable and widely applicable. It clearly shows that leadership and managerial excellence can be learned - and it shows how!

Professional Supervision is a core component of maintaining professional practice and accreditation for many professions particularly in the community and human services sector. Professions such as Social Workers, Occupational Therapists, Physiotherapists, Teachers, Nurses, Midwives, Doctors, Counsellors and Psychologists are encouraged to access regular professional supervision as part of maintaining professional standards in their role; engage self care; promote ongoing growth and development; and meet organisational requirements. Throughout her career, Tracey Harris had had a passion for the role that professional and operational supervision has in the workplace. She has developed a systematic framework that ensures supervision remains effective and sustainable over time. As part of the supervision platform and system, Tracey has developed a range of unique resources, tools and documents for beginning supervisory practitioners to assist them to develop the necessary skills to feel confident and supported in their new role. She has developed seven integrated supervision models that provide a common language framework for all roles in the organizational and business context. Developing Supervisory Excellence: A Practice Guide for the New Professional Supervisor is the first text of its kind to integrate the existing frameworks of supervision into a comprehensive model of practice, providing new supervisors with a clear procedural and practice guide for conducting professional and operational supervision. In addition, it provides new supervisors with a range of resources to support, record, track, and evaluate the supervision process and outcomes. This book: Outlines the different types of supervision and provides reflective questions to encourage new supervisors to reflect on what supervision is, its purpose, what it hopes to achieve and explores what inadequate supervision looks like. Provides new supervisors with a guide on what to look for in quality training, what key topics are useful in training and concludes with reflective questions for new supervisors to consider when thinking about engaging in training. Provides a detailed analysis of the benefits of providing and engaging in professional supervision. Provides key information for new supervisors about how to set up supervision and build rapport in the supervisory relationship. Explores how to maintain professional boundaries and the process of providing and receiving helpful feedback. Outlined and provides examples of relevant documents to use in supervision given the ethical and industrial nature of supervision. Discusses the value of evaluating professional supervision and includes reflective questions for supervisors to consider as they develop a framework for evaluation. Discusses the core differences between the supervision styles and how to manage the dual role of line and professional supervisor. Outlines an example framework for assessing competency and capability for new supervisors.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Practical advice for making the shift to your first leadership position The number of people who will become first-time supervisors will likely grow in the next 10 years, as Baby Boomers retire. Perhaps the most challenging leadership experience anyone will face isn't one at the top, but their first promotion to leadership. They must deal with the change and uncertainty that comes with a new job, requiring new skills, and they've been promoted from peer to leader. While the book addresses the needs of any manager, supervisor, or leader, it pulls from the best leadership and management thinking, and puts the focus on the difficulties that new leaders experience. Includes practical information for new managers who must supervise friends and former peers Authors are expert consultants who work with leaders at all levels Shows how to adopt the mindset of a leader, including: communicating change, giving feedback, coaching employees, leading productive teams, and achieving goals This much-needed book can help new leaders get beyond the stress and fear to focus on becoming the most effective leader they can be-starting right now.

Well-organized collection of over 60 columns on leadership excellence for nurses covering topics such as the challenges of being new on the job, what change really means, managing resistance, developing others in challenging times, and coaching your boss Practical advice based on real circumstances in real healthcare organizations offering true to life examples and successful solutions that apply to nurse leaders at all levels. Emphasis on self-awareness reflecting the extensive research validating that the more self-aware we are, the better leaders we become Concrete and immediate solutions providing uncommon insight and guidance for even the most intractable challenges
