Liferay Portal Setup Guide

They come pre-configured with a running Liferay instance that can be used immediately to explore all of the things that Liferay can do. Bundles are the fastest way to create full production-ready Liferay installations. If you 're using a bundle, skip to the section on the setup wizard below to continue your installation.

Installing a Bundle – Liferay Help Center

These include connecting to a database, declaring the location of the Liferay Home folder, and changing how users authenticate (by screen name instead of by email address). By convention, portal-ext.properties should be created in your [Liferay Home](./liferay-home.md) folder or [USER_HOME] folder to override default property values. You must ...

Install Java 8. The first step in Liferay 7 installation is to install Java. Since, Liferay 7 is compatible with Java 8 (and higher version) only, you need to install Java 8 first. Liferay took this decision to use all latest features of Java. Also Oracle has announced to stop any further support for Java 7.
