Featuring a foreword by Michael Connelly, this relentlessly suspenseful thriller from the New York Times bestselling and Edgar award-winning author of the Inspector Banks novels marks the first time that Peter Robinson has set a novel in America. Sarah Broughton has come a long way. She's the star of a hit cop show on TV. She lives in a beautiful California beach house. And—most importantly—she's put her dark past behind her... as well as her old name, Sally Bolton. No need for anyone to know about that. When Sarah begins receiving letters mysteriously signed with the letter "M," she thinks they're from a harmless admirer... until her real name appears in the third letter. And then she finds that name inscribed in the sand near her home - next to a body. The message is clear: Someone is watching Sarah's every move. Someone so obsessed with her that he won't stop at just one murder in order to prove his love. Panicked, Sarah turns to Detective Arvo Hughes of the LAPD, a man who specializes in hunting down the most dangerous stalkers. But nothing in Hughes' experience has prepared him for the mastermind he's up against. For the killer, there's no cure for love. And for Sarah and Hughes, there's no way out.

The Love Cure is not a method, it is a state of mind and a set of perspectives. The point of this text is to shed light on the parallels and common threads that have occurred and exist throughout some of the most effective modalities of healing and transformation at play now. At the root of every healing modality is a perspective, an understood truth that guides all recommendations. I am taking an approach opposite to that of describing the modality - I am interested in the undeniable truth at the root of every healing, miraculous recovery and transformation that has ever occurred. That root is Love. No matter the 'illness', the cure is Love. No matter the question, the answer is Love. Love in all its expressions and facets and complexities is what I am exploring here.
