This exciting book helps educators translate the concept of equity into the context of pedagogy in the K-12 classroom. Providing a practice-oriented framework for understanding what equity entails for both teachers and learners, this book clarifies the theoretical context for equity and shares rich teaching strategies across a range of content areas and age groups. Unpacking six themes to understand Culturally Responsive Education (CRE), this powerful book helps teachers incorporate equity into behaviors, environments, and meaningful learning opportunities. Culturally Responsive Education in the Classroom provides specific, practice-based examples to help readers develop a culturally responsive pedagogical mindset for closing equity gaps in student achievement.

This document records the oral and written testimony given by witnesses at a series of three Congressional hearings conducted in 1993 to review federal retraining programs for dislocated workers. Witnesses included representatives of federal and state agencies, and Private Industry Councils. Witnesses testified about their programs and what has worked and has not worked in their efforts to retrain dislocated workers. The existing programs were described and suggestions made for improvements, including putting programs in place before layoffs, and shortening the timeframe for retraining programs so workers can afford to complete them. However, according to witnesses, whatever successes have occurred have been tempered by the sluggish economy and the reality that most of the new jobs for which workers can be retrained pay

College student populations are becoming increasingly more diverse as students from diverse backgrounds have greater access to higher education. Additionally, governing bodies have heightened expectations related to student success, retention, and time to degree, thus holding institutions of higher education more accountable. With a changing student demographic and increased accountability measures, faculty and administrators are seeking effective strategies to enhance intercultural responsiveness among underrepresented populations to support their success. Developing an Intercultural Responsive Leadership Style for Faculty and Administrators is a critical research publication that examines student retention and success among underrepresented college

student populations by analyzing factors impacting their persistence towards graduation as well as exploring strategies to enhance intercultural responsiveness among these populations. Featuring a wide range of topics such as diversity, intercultural fluency, STEM education, and lifelong learning, this book is ideal for administrators, faculty, academicians, policymakers, researchers, and students.

The achievement of students of color continues to be disproportionately low at all levels of education. More than ever, Geneva Gay's foundational book on culturally responsive teaching is essential reading in addressing the needs of today's diverse

student population. Combining insights from multicultural education theory and research with real-life classroom stories, Gay demonstrates that all students will perform better on multiple measures of achievement when teaching is filtered through their own cultural experiences. This bestselling text has been extensively revised to include expanded coverage of student ethnic groups: African and Latino Americans as well as Asian and Native Americans as well as new material on culturally diverse communication, addressing common myths about language diversity and the effects of "English Plus" instruction.

Edited by Ute-Christine Klehe and Edwin A.J. van Hooft, *The Oxford Handbook of Job Loss and Job Search* provides readers with one of the first comprehensive overviews of the latest research and empirical knowledge in the areas of job loss and job search.

Multidisciplinary in nature, Klehe, van Hooft, and their contributing authors offer fascinating insight into the diverse theoretical and methodological perspectives from which job loss and job search have been studied, such as psychology, sociology, labor studies, and economics. Discussing the antecedents and consequences of job loss, as well as outside circumstances that may necessitate a more rigorous job hunt, this Handbook presents in-depth and up-to-date knowledge on the methods and processes of this important time in one's life. Further, it examines the unique circumstances faced by

different populations during their job search, such as those working job-to-job, the unemployed, mature job seekers, international job seekers, and temporary employed workers. Job loss and unemployment are among the worst stressors individuals can encounter during their lifetimes. As a result, this Handbook concludes with a discussion of the various types of interventions developed to aid the unemployed. Further, it offers readers important insights and identifies best practices for both scholars and practitioners working in the areas of job loss, unemployment, career transitions, outplacement, and job search.

responsive instruction has shown promise, but many teachers have struggled with its implementation—until now. In this book, Zaretta Hammond draws on cutting-edge neuroscience research to offer an innovative approach for designing and implementing brain-compatible culturally responsive instruction. The book includes:

- Information on how one's culture programs the brain to process data and affects learning relationships
- Ten “key moves” to build students' learner operating systems and prepare them to become independent learners
- Prompts for action and valuable self-reflection
