The decolonization of countries in Asia and Africa is one of the momentous events in the twentieth century. But did the shift to independence indeed affect the lives of the people in such a dramatic way as the political events suggest? The authors in this volume look beyond the political interpretations of decolonization and address the issue of social and economic reorientations which were necessitated or caused by the end of colonial rule. The book covers three major issues; public security; the changes in the urban environment, and the reorientation of the economies. Most articles search for comparisons transcending the colonial period to the early decades of independence in Asia and Africa (1930's-1970's). The volume is part of the research programme 'Indonesia across Orders' of the Netherlands Institute for War Documentation.

Soon enough, it's discovered that an accelerant was used to fan the flames. Someone set the fire on purpose--was Hannah the intended victim? Suzanne, Petra, and Toni vow to smoke out the culprit. Unfortunately, the list of suspects is as varied as the Cackleberry Club's menu. When Suzanne finds a possible connection between the fire and the nearby Prairie Star Casino, she comes to realize that the arsonist wanted something very big and bad kept secret. And if the ladies aren't careful, they may be the ones gambling with their lives...
