<p>Discover the worldwide phenomenon of ThetaHealing© and how it can help you to achieve transformational healing in this revised and updated edition of Vianna Stibal's definitive guide. In 1995, Vianna Stibal was diagnosed with a serious health condition. When conventional and alternative medicine failed her, she discovered a simple technique that cured her illness and sparked a worldwide phenomenon. ThetaHealing© is essentially applied quantum physics. Using a theta brain wave, which until now was believed to be accessible only in deep sleep or yogi-level meditation, the practitioner is able to connect with the energy of All That Is - the energy in everything - to identify issues with and witness healings on the physical body, and to identify and change limiting beliefs. In this revised and updated edition, you will discover: - the belief and feeling work that can instantly change the thinking within you that creates illness - the 7 Planes of Existence, a concept that allows you to connect to the highest level of love and energy of All That Is - how to develop the ability to change on all levels: physically, mentally, emotionally and spiritually, using the Creator of All That Is.</p>
<p>Essential ThetaHealing© handbook for practitioners explaining how we can connect with the Creator for spiritual elevation. When we enter a theta brain state, we can connect to the Creator of All That Is. Discover how to improve this connection to achieve deep inner healing. Founded by Vianna Stibal, ThetaHealing© is a powerful healing modality through which we can change limiting beliefs to receive deep emotional and physical healing. While in the Theta state, we're able to connect with the divine energy that flows through all things: The Creator of All That Is. Vianna is often asked: 'How do I know I'm connected to the Creator, or if it's just my own thoughts?' The true answer is that to know the difference between your thoughts and divine inspiration, you must first understand yourself. This in-depth guide for ThetaHealing practitioners will teach you how to experience knowing yourself on an intimate level, so you can recognize this difference and establish clear and enlightened communication with the Creator. Vianna shares powerful teachings, downloads, exercises, and her own experiences to illustrate how to recognize the belief systems, inner aspects, and subconscious selves preventing you from fully bonding with the energy of the Creator, and how to navigate and understand your own mind. The Creator always communicates from a place of pure, perfect love, and Vianna details a powerful road map for experiencing and strengthening this connection, so that you too can become limitless.</p>

<p>In her first book, Vianna Stibal, the creator of ThetaHealing, introduced this amazing technique to the world. Based on thousands of sessions with clients who have experienced remarkable healings with Vianna, this comprehensive follow-up is an in-depth exploration of the work and processes central to ThetaHealing. As you read, you will learn about Feeling, Belief, and Digging Work; and also be given information on the 7 Planes of Existence, which allow you to connect to the highest level of love and energy of All That IS. This is advanced energy healing that will enable you to enhance your life physically, emotionally, and spiritually!</p>
<p>Life as Kim and Krickitt Carpenter knew it was shattered beyond recognition on November 24, 1993. Two months after their marriage, a devastating car wreck left Krickitt with a massive head injury and in a coma for weeks. When she finally awoke, she had no idea who Kim was. With no recollection of their relationship and while Krickitt experienced personality changes common to those who suffer head injuries, Kim realized the woman he had married essentially died in the accident. And yet, against all odds, but through the common faith in Christ that sustained them, Kim and Krickitt fell in love all over again. Even though Kim stood by Krickitt through the darkest times a husband can ever imagine, he insists, " I ’ m no hero. I made a vow. " Now available in trade paper with a new chapter and photo insert, The Vow is the true story that inspired the major motion picture of the same name starring Rachel McAdams (The Notebook), Channing Tatum (Dear John), Sam Neill</p>

(Jurassic Park), and Academy Award winner Jessica Lange.

Written by the creator of ThetaHealing®, Vianna Stibal, this is more than just a weight loss book! It is about finding a real rhythm for your mind, body and spirit, while tapping into your inner beauty and love for yourself. ThetaHealing began when Vianna realised that she could teach other people the method that she used to heal herself from a serious health condition. It is now famous for being one of the most powerful energy-healing techniques in the world. Now, for the first time, Vianna has compiled a book that demonstrates how to use ThetaHealing for weight loss and reveal a strong, healthy and beautiful body which you love! Using the techniques in this book, you will be able to:

- select the right foods and supplements to nourish your body, and enjoy the foods you love without guilt
- make your body think that it is exercising while you listen to music and relax!
- release the emotions and fears that hold you back from having the body you want
- change your unhelpful beliefs into more productive and useful beliefs that will allow you to release your excess weight. So say goodbye to calorie counting and feeling guilty, and say hello to being comfortable in your own body and finding inner peace and happiness!

First developed twenty years ago by Vianna Stibal, ThetaHealing is essentially applied quantum physics. Using a theta brain wave, which until now was believed to be accessible only in deep sleep or yogi-level meditation, the practitioner is able to connect with the energy of All That Is — the energy in everything — to witness healings of the physical body, and to identify and change limiting beliefs. This book is for those who have already started to experience the magic of this energy healing modality, and wish to deepen their understanding of the Seven Planes of Existence — the philosophy behind the creation of ThetaHealing. Vianna presents exciting new information to help you take your skill with this work to the next level, and brings the reader into dimensions that she believes to be the beginnings of life itself, on a journey that leads outward, past the universe, to transform beliefs, showing that with a theta state of mind it is possible to connect to a Divine Energy before it becomes anything in this universe.

Many of us are born into this world with the feeling and knowing of what being loved by another person should feel and be like, but we lack the feeling and knowing of how to fulfill this desire in the highest and best way. The desire for a soul mate is the ancient need to become the divine couple whose union breathes new life into the world. Seen from this context, finding your soul mate has deeper ramifications than a purely romantic desire; the union of a soul mate is about the creation of an energy that is a candle to bring illumination to the world. The content of this book is designed for spiritually romantic people who have not lost the faith that there is someone out there that has a divine understanding of us, and that two people are brought together for a divine plan that will contribute towards a higher purpose. Based on Vianna Stibal's own experience of finding her soul mate, this book will reaffirm your belief in true love and will explain how, using ThetaHealing®, you can bring your soul mate into your life.

Learn how to access the deepest layers of your subconscious thinking to identify and correct limiting beliefs and enable life-changing physical and emotional healing. ThetaHealing® is a revolutionary healing modality, devised by Vianna Stibal, that taps into the brain's Theta waves to enable deep emotional and physical healing by changing our limiting beliefs. Yet often, we are afraid of digging to the deepest layers of our subconscious thinking, and instead gloss over them with new positive affirmations, or downloads; but they do not replace the deeply transformative work of exploring, understanding and correcting beliefs that were instilled in this life and past lives. This is the principle of digging for beliefs. In this essential book for any student of ThetaHealing, you'll learn:

- the five vital steps of digging for beliefs
- how to identify core beliefs and the 10 different approaches to change them
- when it's appropriate to erase a belief, and when to use it as a springboard for positive change
- common mistakes made in digging work and how to avoid them in your own practice

With examples from Vianna's workshops, you'll soon be equipped with the right tools to dig for beliefs and enable deep, life-changing healing for yourself and others.
