In Home Furnaces

Hey guys I'm not
a homeowner. I'm
a 313A

refrigeration

mechanic and G2

gas license

holder (soon to

be G1). I'm

working on an
older Clare gas
furnace. The

pressure switch
is

intermittently
making and
breaking. There
is no rating
listed on it so
I can't even
test it

properly, nor

File Type PDF

Tri Delta

can I replace it
without knowing
the proper
rating. I'm
running about
-0.65" fairly
steadily.
