Help kids build confidence and find their own creative voice through this collection of 25+ invitations for drawing. In Drawing Workshop for Kids, art educator Samara Caughey, founder of the highly praised family-centered art studio Purple Twig, shares drawing activities that support the development of creative, confident children ages 7 and up. All kids need to begin engaging in the pleasure of these simple yet inspiring drawing projects are a pencil and paper. Along the way, new materials are introduced, giving kids the opportunity to experiment with new techniques. Each of the three main chapters—drawing from life, drawing from images, and inventive drawing—focuses on techniques to explore, such as observation, mark making, shadow, line, composition, detail, contour, and perspective. Drawing Workshop for Kids strives to inspire children to investigate drawing and develop their own approach to art, building creativity and confidence.

Workshop Processes, Practices and Materials is an ideal introduction to workshop processes, practices and materials for entry-level engineers and workshop technicians. With detailed illustrations throughout and simple, clear language, this is a practical introduction to what can be a very complex subject. It has been significantly updated and revised to include new material on adhesives, protective coatings, plastics and current Health and Safety legislation. It covers all the standard topics, including safe practices, measuring equipment, hand and machine tools, materials and joining methods, making it an indispensable handbook for use both in class and the workshop. Its broad coverage makes it a useful reference book for many different courses worldwide.

This book focuses on probability and the Bayesian viewpoint. It presents basic material on probability and then introduces inference by means of Bayes'rule. The emphasis is on statistical thinking and how one learns from data. The objective is to present the basic tenets of statistical inference. Unique in its format, the text allows students to discover statistical concepts, explore statistical principles, and apply statistical techniques. In addition to the numerous activities and exercises around which the text is built, the book includes a basic text exposition for each topic, and data appendices.

In celebration of its 100th anniversary of Boy Scouts of America and its publication Boys' Life, this book is a collection of the best Boys' Life pages of news, nature, sports, history, fiction, science, comics, and Scouting information. All pages in this collection are facsimile reproductions of the magazine's original pages.

This book presents theories and case studies for corporations in developed nations, including Japan, for designing strategies to maximize opportunities and minimize threats in business expansion into developing nations. The case studies featured here focus on Asia, including China and India, and use examples of Japanese manufacturers. Five case studies are provided, including Hitachi Construction Machinery and Shiseido in China and Maruti Suzuki in India. These cases facilitate the reader ' s understanding of the business environments in emerging economies. This volume is especially recommended for business people responsible for international business development, particularly in China and India. In addition, the book serves as a useful resource for students in graduate-level courses in international management.

Reflects philosophy of Model Curriculum Guide for the English-Language Arts (K-8).
