Women living in Florence during the Renaissance were the most educated in Europe although opportunities to serve assembly government, teach at the universities or to produce books of personal perspective on life were restricted to women. On the contrary, artisan women differed from elite women because they were able to work within the community.

Role of Women during the Renaissance period. – Crystal ...

In the time of the renaissance women were considered to legally belong to their husbands. Women were supposed to be typical 'housewives.' Though women were inferior to men, women in different classes had different roles. Low class women were expected to be housewives and take care of everything to do with the house. The expectation of working class women was a little bit different.

Gender Roles of Women in the Renaissance

Representation Of Women In Renaissance Drama English Literature Essay I believe it is also important to note that even though the actors performing were male, the theatre would have also been for the entertainment of women; the feminine gender was therefore displayed through costumes.
