From one of the nation's preeminent experts on women and emotion, a breakthrough new book about how to stop negative thinking and become more productive It's no surprise that our fast-paced, overly self-analytical culture is pushing many people-especially women-to spend countless hours thinking about negative ideas, feelings, and experiences. Renowned psychologist Dr. Susan Nolen-Hoeksema calls this overthinking, and her groundbreaking research shows that an increasing number of women-more than half of those in her extensive study-are doing it too much and too often, hindering their ability to lead a satisfying life. Overthinking can be anything from fretting about the big questions such as "What am I doing with my life?" to losing sleep over a friend's innocent comment. It is causing many women to end up sad, anxious, or seriously depressed, and Nolen-Hoeksema challenges the assumption-heralded by so many pop-psychology pundits of the last several decades-that constantly expressing and analyzing our emotions is a good thing. In Women Who Think Too Much, Nolen-Hoeksema shows us what causes so many women to be overthinkers and provides concrete strategies that can be used to escape these negative thoughts, move to higher ground, and live more productively. Women Who Think Too Much will change lives and is destined to become a self-help classic.

Is this the way love is supposed to feel? • Does the man you love assume the right to control how you live and behave? • Have you given up important activities or people to keep him happy? • Is he extremely jealous and possessive? • Does he switch from charm to anger without warning? • Does he belittle your opinions, your feelings, or your accomplishments? • Does he withdraw love, money, approval, or sex to punish you? • Does he blame you for everything that goes wrong in the relationship? • Do you find yourself "walking on eggs" and apologizing all the time? If the questions here reveal a familiar pattern, you may be in love with a misogynist - a man who loves you, yet causes you tremendous pain because he acts as if he hates you. In this superb self-help guide, Dr. Susan Forward draws on case histories and the voices of men and women trapped in these negative relationships to help you understand your man's destructive pattern and the part you play in it. She shows how to break the pattern, heal the hurt, regain your self-respect, and either rebuild your relationship or find the courage to love a truly loving man. BONUS: This edition contains an excerpt from Susan Forward's Toxic Parents.

Lacing cultural criticism, Victorian literature, and storytelling together, "TOO MUCH spills over: with intellect, with sparkling prose, and with the brainy arguments of Vorona Cote, who posits that women are all, in some way or another, still susceptible to being called too much." (Emé Wei-jun Wang) A weeping woman is a monster. So too is a fat woman, a horny woman, a woman shrieking with laughter. Women who are one or more of these things have heard, or perhaps simply intuited, that we are repugnantly excessive, that we have taken illicit liberties to feel or fuck or eat with abandon. After bellowing like a barn animal in orgasm, hoovering a plate of mashed potatoes, or spraying out spit in the heat of expostulation, we've flinched-ugh, that was so gross. I am so gross. On rare occasions, we might revel in our excess-belting out anthems with our friends over karaoke, perhaps-but in the company of less sympathetic souls, our uncertainty always returns. A woman who is Too Much is a woman who reacts to the world with ardent intensity is a woman familiar to lashes of shame and disapproval, from within as well as without. Written in the tradition of Shrilf, Dead Girls, Sex Object and other frank books about the female gaze, TOO MUCH encourages women to reconsider the beauty of their excesses-emotional, physical, and apiritual. Rachel Vorona Cote braids cultural criticism, theory, and storytelling together in her exploration of how culture grinds away our bodies, souls, and sexualities, forcing us into smaller lives than we desire. An erstwhile Victorian scholar, she sees many parallels between that era's fixation on women's "hysterical" behavior and our modern policing of the same: in the space of her writing, you're as likely to encounter Jane Eyre and Lizzie Bennet as you are Britney Spears and Lana Del Rey. This book will tell the story of how women, from then and now, have learned to draw power from their reservoirs of feeling, all that makes us "Too Much."
